

2024 Leader Acceleration Project

The Need of the Hour in Missions and the Marketplace – Godly Leadership

We cannot fulfill the Great Commission unless we train and equip true, Godly leaders. Without Godly, spiritual leadership the outcomes will be –

- Limited spread of the Gospel and a widening discipleship gap.
- Businesses and organizations focusing almost exclusively on their profit and growth at the expense of their employees and their customers.
- Servant leadership replaced by positional or even dictatorial leadership styles.
- Self-serving strategies are employed.
- Current leaders experiencing burnout.

While the need for Godly leaders is growing, we are not seeing a growth in the depth and breadth of new leaders. This is not because there is a lack of information, as there is an over-abundance of leadership books, seminars, resources, blogs and podcasts that are available. There are so many conferences and webinars that one is left overwhelmed and not knowing where to start. **We need something that will disrupt how leaders are equipped.**

Leadership Revolution's Uniqueness

Leadership Revolution offers a complete shift in focus on developing leaders. It is not about us (our skills, knowledge, and methods), but it is about the One Leader, Jesus Christ, leading in and through us to accomplish His work. This work of Christ is only through our brokenness, surrender, and humility releasing the infinite, supernatural power of Christ to flow through us. **We are changing how leaders are developed and seeing God change the world.**

Our strategy is to partner with global and marketplace ministries as well as businesses to help them in multiplying their impact through leadership development. We want to see the Lord working and bearing multiplied fruit through these organizations and leaders because of what Christ is doing rather than what we are attempting to do in our limited strength and capacity.

This year, we have seen the Lord do amazing things bringing thousands to faith and be discipled, while in turn reaching their arenas of influence.

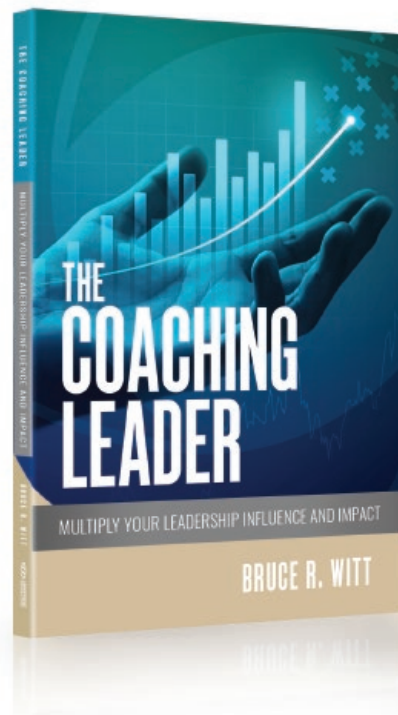

The Coaching Leader – A New 2023 Resource

We have just released our newest book, *The Coaching Leader*, which will significantly enhance and accelerate the leadership development process for businesses and organizations. The reception has been extremely positive with many organizations seeking to partner and utilize this book as a part of a new way of developing and equipping leaders.

We see this opening up doors here both in the US and internationally, and several of our partner ministries are putting programs in place to use it extensively next year.

As our special gift to you, please download a complimentary digital copy of *The Coaching Leader* at LeadershipRevolution.us/Coach.

2024 Leader Acceleration Project

Our Leadership Development process is critical to world missions and discipleship because it ensures that the spiritual foundation is Christ-centered and biblically based so that the work is carried out effectively, sustainably, and with the greatest possible impact. It empowers local leaders, fosters cultural sensitivity, and enables organizations to adapt to changing circumstances, all of which are vital for spiritual transformation.

We are seeking to raise the \$45,000 by December 31, 2023 which will help us fully engage and equip these leaders, but moreover have an overwhelming impact with the gospel of Jesus Christ to transform people and nations.

As we implement this 2024 Leader Acceleration Project, we can have a significant Gospel impact by implementing these three tools:

Leadership Acceleration - \$10,000

A leadership development process based on *The Coaching Leader* that will significantly speed up the training and equipping of spiritual leaders around the world.

The X-Factor Process - \$25,000

This is a comprehensive process and collection of resources that help both businesses and organizations to move from the level of execution to excellence and finally to the level of exceeding abundance. It integrates the spiritual, the exceptional, and the practical. We are seeking to influence many businesses and nonprofits globally through this training and equipping process.

One Leader Web Training - \$10,000
